TRADILEX. Pilot of a new methodology for English learning

UdL news

The research project *Audio-visual translation as a didactic resource in foreign language acquisition* (TRADILEX) will pilot the use of tasks related with audio-visual translation for the learning of foreign languages. The “**Institut de Llengües de la Universitat de Lleida**” will be one of the centers that will implement this new methodology of learning during next year 2021-2022.

Dr. Mariona Sabaté Carrové, from the Department of English and Linguistics of the UdL and member of the research project TRADILEX, is the responsible for the coordination of the project at the UdL.
