Theatre Workshop 2021

On the 9th and 17th of February, the Baccalaureate students from IES Joan Oró in Lleida and Vedruna School in Tàrrrega attended the debate online held by members of last year's edition of Theatre Workshops in English, Laura Oller, Javier Royes and Alba Martín. The participants, together with Núria Casado as the workshops' director, and Francesc Alamón, in charge of the dissemination of this activity to secondary schools, have shared their opinions and experiences around theatre-making and creating video-pieces in English. This action has replaced the yearly attendance of secondary-school classgroups to the workshop's final show, which could not be organized last year due to the pandemic, and has resorted to the materials from the workshop available in the YouTube Channel DALDrama Productions.
